

Thermal Remediation Workshop

Donald Gordon Centre
421 Union Street
Kingston, ON

April 30, 2015
(9:00 am – 5:00 pm)

Convenors
Dr. Bernard Kueper
Dr. Brent Sleep
Dr. Kevin Mumford

This workshop is an opportunity for contaminated site investigation and remediation professionals to meet and discuss new advances in our understanding and application of in situ thermal treatment technologies for the remediation of contaminated sites. Discussion will include new developments pertaining to gas phase generation, multiphase transport, and the effects of geological heterogeneity on thermal treatment. Invited speakers and graduate students will present new research and case studies. **Please register by April 10, 2015.**

Workshop Fee: \$65.00 (+ tax) per participant (lunch and coffee breaks included); credit card or cheque

Registration: Please contact Claire Gazette 613.533.2221/1.866.455.2655 (grazette@queensu.ca)
